

Harbor Observatory - source notes

Extract QA / readable text PDF / 26 September 2026

Purpose

This two-page PDF contains readable synthetic evidence for extraction, table preservation, source provenance, and page-aware inspection. It has no personal or sensitive data.

Facts for retrieval

- The amber lighthouse stands beside the quiet harbor.
- Mira is the harbor guide and opens the observatory at dawn.
- The beacon is visible at dusk, after the visitor desk closes.
- The archive on the second floor holds twelve navigation maps.

Published schedule table

Location	Opens	Evidence note
Observatory	06:00	Mira meets visitors at dawn
Visitor desk	09:00	Closes before the dusk beacon
Map archive	10:00	Twelve navigation maps

Harbor Observatory - page two

Continuation / independent page evidence

Map archive

The map archive contains twelve navigation maps. Four maps describe the northern channel, five describe the central harbor, and three describe the southern approach.

Visitor instructions

1. Ask Mira at the observatory entrance for the daily route card.
2. Visit the map archive after 10:00 to review the twelve maps.
3. Return to the harbor path at dusk to view the amber beacon.

Page-specific answer

Question: How many maps cover the southern approach? Answer: Three. This answer appears on page two and should cite page two rather than page one.
